New York's #1
Children's Hospital
Treating kids like kids

Find a Doctor Call: 800-245-5437

NewYork-Presbyterian is New York’s No. 1 children’s hospital*. Our team of nationally renowned pediatric specialists treat newborns through young adulthood with all types of conditions. With 2 children's hospital campuses, dozens of medical group practices, and even your mobile phone through our telehealth services, we can provide our patients with exceptional care no matter where they live.

Top Doctors

With more top pediatric doctors than any other hospital in the New York metro area, we care for all kinds of kids' conditions, no matter how big or small.

Find a doctor >

A Leader in Telehealth

With our telehealth services, parents can access virtual care on the go and save time commuting to a doctor's office.

Learn about our telehealth services >

Pet-guided Therapy

Our pet therapy program aims to help lower child anxiety, helping kids feel comfortable and safe while in our care.

Soothing Voice Recording

Parents can't always be near their newborns in the NICU, but with our Voice Recording program, their calming voices can be.

Services

Neonatology (Newborn Care)

Our New York State Department of Health–designated Regional Perinatal Centers are recognized for delivering the highest level of perinatal care. Our NICUs feature the latest specialized newborn intensive care approaches and are staffed by neonatologists and specially-trained nurses.

Learn more about Neonatology >

Pediatric Cardiology (Heart)

NewYork-Presbyterian is consistently ranked among the top pediatric cardiology and heart surgery programs in the country. Our bi-campus Congenital Heart Center takes a fully integrated approach to the treatment of complex heart conditions in people of all ages, from newborns to adults.

Learn more about Pediatric Cardiology >

Pediatric Oncology (Cancer)

Our pediatric cancer specialists combine expertise with compassion when caring for children. We’re home to one of only 21 institutions in the country designated by the National Cancer Institute to conduct Phase I pediatric clinical trials.
