See and speak with a doctor, quickly and conveniently

Save time, and get the care or information you need in a fast, secure way. There are several situations when a videoconference may be appropriate for you. You may have an illness or injury that the doctor can diagnose and treat by visually examining you, and listening to your concerns. Like a traditional appointment, they can even give you a prescription.

NYP OnDemand Urgent Care is not for medical emergencies. If you are having a medical emergency, please proceed to the nearest emergency room or call 911.
